Wm. Taylor Wins By Increased Majority

CONTEST FOR SHERIFF'S OFFICE IN LAWRENCE COUNTY SETTLED BY COURT.

Wm. Taylor, Democrat, won the contest for the office of Sheriff of Lawrence county in circuit court last Friday, the final count giving him 17 majority.

Mr. Taylor was given the certificate of election on a majority of six votes in November. His opponent, Jim Henry Thompson, contested and lost by an increased majority. In the court it was found that 60 votes in lower Louisa precinct were not counted by the election officers in November. Twenty-four of these votes for Thompson and 36 for Taylor. It is said the vote for J. H. Short, Democrat for jailer, was larger than that of Mr. Taylor in lower Louisa, as that is his home precinct. As he lost by only four votes, he would have won on a recount but having failed to take steps within time, it is too late.

Circuit court adjourned Saturday.

INCREASED PRODUCTION BY USE OF FERTILIZER

In view of the fact that we must win this war and on the farmers rest the responsibility. We must increase our production for 1918. To increase our production we must use the fertilizer. This year we must use fertilizer, better labor saving implements, and above all work a greater number of hours every day than we did last year.

This is the year when every farmer can afford to use fertilizer. If you have never used any talk to your neighbor who has got his opinion, consult your county agent, he is always eager to help you. If you still doubt the increased production by the use of fertilizer, try an experiment on your own farm, watch the results and convince yourself. Owing to the limited amount available to use 16 per cent acid phosphate exclusively this year, especially on all grain crops. Most dealers are quoting acid phosphate at around \$24 per ton in large quantities, and may I here ask all farmers who expect to use any acid phosphate to notify the county agent at once of the amount you want.

There are many fertilizers on the market for nearly all crops, and most all of them are good and will give an increased production, and it is not only advisable, but important that every farmer use fertilizer this year. The price of fertilizer this year is cheaper than last year when compared with present prices of farm crops and those of last year.

Let me again urge you to post yourself on the fertilizer problem and order early as the supply is going to be limited. For further information apply to your county agent. We must increase our production if we are to beat the Hun. Yours for a greater production. G. C. BAKER.

CITY COUNCIL MEETING.

The city council met in regular session Tuesday night with all members present except councilman John M. Moore.

After routine business was transacted, the question of the financial condition of the city was brought up, involving settlement with outgoing officers. Mr. James C. Adams was appointed to go over the books and make a complete statement of the affairs of the city, the report to be ready for the meeting in April.

The work of attending to the street lights was placed in the hands of Albert Murray.

The duties of fire marshal were added to the work of the city marshal, and he was directed to put the hose, reels and hydrants into good condition and keep them ready for immediate service at all times.

The pool room was ordered to close at 9:30 p. m., standard time.

The improvement committee was directed to go over the streets and have bad places repaired.

ENTERTAINED RELATIVES.

Mr. and Mrs. G. W. Castle entertained on Wednesday to an elegant turkey dinner. The guests were Mr. and Mrs. F. T. D. Wallace, Mrs. Frank E. Howe of New York, Mr. and Mrs. R. C. Lawrence Co. Boy in France More New Men Examined Here

France, January 27, 1918. Mr. M. G. Berry, Louisville, Ky.

Dear Uncle—Will give you a short account of my four months' experience in the medical department in France. Coming across the channel we landed at a French port on the morning of the 26th of September, about 6 o'clock. We were about twelve hours in crossing and were so crowded that one almost had to stand up to sleep.

All the men that remained on deck during the night had to duck low and lie still, perchance they might be discovered by the enemy. I being one of the number on deck ducked under a seat and with the floor for a bed and a life preserver for a pillow, managed to get a few hours sleep.

When we pulled into harbor next morning we had breakfast and then with blanket rolls and haversacks proceeded to disembark. After disembarking we marched about two miles to an English rest camp. We arrived there about 11:30 a. m., tired, sleepy, hungry and thirsty. After unloading our packs under a shed we proceeded to quench our thirst and pretty soon had some dinner. After dinner most of us spent the afternoon sleeping for we had very little sleep for two nights. Later in the evening we were taken to a bunk house where we were to be quartered. We soon got busy unrolling our blanket rolls, spreading our blankets on our bunks and proceeded to turn in for the night. A bed with only two blankets and poultry wire for springs might feel very uncomfortable to you but to me it felt pretty good. We remained in this camp for a week and then the companies of M. D. men were split up and sent to different places. About 50 of us went to Hospital No. 2. We were about two days and nights in making the journey by rail. We traveled on a local and stopped at every station along the route. The fellow that wrote "The Slow Train Through Arkansas" sure never traveled on a local train through France. We passed through some beautiful country. The French have their farms very artistically arranged and well kept.

We arrived at Base 39, which is located in a city containing a population of about a hundred thousand, but would judge that it is much less than that at present. We were given a hearty welcome by the French being the second bunch of U. S. soldiers that had arrived there.

Arriving at the hospital we were given good quarters and good comfortable beds. There being no patients in the hospital as yet we did not have very much to do. After remaining there for about three weeks a bunch of us was sent to American Red Cross Military Hospital No. 2. Leaving the station at Base 39 at 5:30 on Sunday morning we arrived at the station where we were to get off at about 12 o'clock Sunday night. There being no one to meet us and not knowing where to go we spent the remainder of the night in the station. Next morning we were met by a sergeant who took us to the hospital. After being established in our new quarters we were allowed to sleep most of the afternoon. We were then given some instructions in what to do. The next morning each man was assigned to his various duties. I being among the number assigned to orderly duty. You can imagine how out of place I felt having never worked in a hospital before. Since have become more acquainted with the work rather enjoy it. The nurses are all very nice and most of the patients are a nice jolly bunch of fellows. We have good quarters and plenty to eat considering the scarcity of some articles of food.

Both Thanksgiving and Christmas we had real good dinner, including the bird appropriate for the two holidays. It was a real American Christmas and every one seemed to enjoy himself.

The winter hasn't been so very cold, with but very little snow. The weather is very pleasant for this time of year. The French claim that the worst of winter is over, spring beginning in February.

Your nephew,
CLARENCE STEWART.

DEATH OF MRS. MAHALA QUEEN.

Death entered our community January 29 and took for its victim Mrs. Mahala Queen, wife of John E. Queen. Mrs. Queen had been in poor health for two years, and death came as the result of pneumonia. She bore her suffering patiently and told Dr. Hall shortly before the final summons came she was ready to die and had been preparing for death a long time.

She was the mother of ten children. All are living but one that was taken in infancy. Most all of the children were with her during her sickness and death.

She was a kind, loving mother, a devoted companion, a home lover and loved by all who knew her. She always was kind and good and had gentle soothing words to say to any one she was with in trouble.

Oh how she is missed in the home for how sad is the home without a mother, but we can think of her in that beautiful home of the soul where no pain and no sorrow can enter and, let all live here so we can clasp mother in our arms when we enter the pearly gates of heaven where death does not enter and no more sad good-byes are spoken, but be forever with loved ones and shout the praises of Him who died on the rugged cross of Calvary that we might live again.

Very few of her relatives were able to attend the burial as the weather would not permit.

The remains were laid to rest on a beautiful knoll near the home, the place being chosen by her husband.

A DAUGHTER.

A BROTHER OF MRS. H. O. CHAMBERS DIES

Rev. and Mrs. Herbert O. Chambers of the M. E. Church South, are receiving the sympathy of their friends here on account of the death of a brother of Mrs. Chambers, which occurred Tuesday at Birmingham, Ala. Just before the telegram came announcing the sad occurrence a letter had been received stating that he had suffered a stroke of paralysis. His name was Sam J. Speer, and his age 39. A wife survives him. He was manager of one of the large hotels in Birmingham. Mr. Speer was the son of a Methodist minister. The burial took place Thursday 140 miles south of Birmingham.

SEED CORN.

The seed corn situation is serious and becomes more alarming as we go into it. Do not depend entirely on seed houses, but let's be self supporting and solve our own problems.

Want you please notify your county agent, at once, if you have seed corn to sell or of any one whom you think has seed corn to sell.

You can render no more patriotic service to your county and to your country than to help solve the seed corn situation in Lawrence county.

Be sure to attend the seed corn meetings that will be held in your neighborhood in the near future. Test your seed corn. Its going to be a good price.

Yours earnestly
G. C. BAKER.

INEZ ITEMS

Spring seems to be here and gardening is the topic of the day.

A meeting is being held by the United Baptist church by the Rev. Mr. Niecey.

Mrs. R. F. Cassady and son, Earl, have returned from Colorado where they were called to see Clyde. They report Clyde as being on his feet again.

Mr. L. K. Vinson is in Inez on business.

A letter has been received from Andy Blankenship who recently went to Camp Taylor, thinking the women and girls for the "housewives" which were given the soldiers. He says that his quarters at Camp Taylor are clean and comfortable.

Mr. W. M. Hale and son, Rudolph, were at Frankfort last week.

Judge J. D. Kirk and family have moved to town.

NEXT CALL MAY COME IN APRIL

Washington, March 5.—Announcement of the date of the next draft is imminent. The provost marshal general's office has prepared an important announcement, which is believed to deal with the time and method of summoning the second levy. The best opinion is that the first of the men will move to camp in April.

Publication of the announcement is held up for action by Congress on pending amendments to the selective service act. The most important of the proposed changes is that which will give authority to base state quotas on the total number of men in class A-1 instead of total registered.

Preparations have been made for summoning the remaining negroes certified under the first draft. Between 70,000 and 80,000 of these were called but only half of them have been sent to the training camps. The inadvisability of centralizing these troops in the southern camps and the fact that the army medical authorities advise against sending them north in winter, accounts for the delay.

SECONDO LEVY AND ALSO MORE NEGROES SOON TO GET READY.

Each state will have its own drive manager, names to be announced later. Last summer with little organization, the Red Cross secured subscriptions amounting to \$119,000,000, and now with a membership of 22,000,000 we have every reason to believe that the \$1,000,000,000 fund will be over-subscribed, says Mr. Grant.

Chapter campaign managers will be notified in a few days of the dates of a series of state meetings at which methods will be explained.

SECONDO RED CROSS DRIVE.

Ohio, Kentucky and Indiana will be asked to contribute \$9,400,000 in the second Red Cross War Fund Drive, for \$100,000,000. It. F. Grant, Director of the drive in the Lake Division, announced Friday.

Ohio quota is \$6,400,000, Indiana \$2,100,000 and Kentucky's \$900,000.

Each state will have its own drive manager, names to be announced later. Last summer with little organization, the Red Cross secured subscriptions amounting to \$119,000,000, and now with a membership of 22,000,000 we have every reason to believe that the \$1,000,000,000 fund will be over-subscribed, says Mr. Grant.

Over the Top

By an American Soldier Who Went
ARTHUR GUY EMPEY

When the Lusitania was sunk Arthur Guy Empey decided that he could not wait for his country to declare war—so he sailed without orders for England, and enlisted as a Canadian.

He recounts this incident in "OVER THE TOP" in less than five hundred words. In a few thousand more words he completes his experiences in England—and after that he is in France—for the greater part of the eighteen months before he was invalided home, in the "Front Line Trenches."

"OVER THE TOP" is the first story by one of the American soldiers who went to France, has been a real combatant and has seen long service in the trenches.

Sergeant Empey tells what it actually means and feels like:

to be wounded seven times;
to live for a year and a half with mud and rats and shells;
to be covered with "cooties" and never to get rid of them;
to go "over the top" in a charge;
to grasp for your gas helmet when a second's delay means death;
to capture a Prussian;
to get tangled up in barb-wire with that machine gun working a few yards away;
to lie for thirty-six hours wounded and unconscious in "No Man's Land."

For a year and a half, until he fell wounded in "No Man's Land" this American soldier saw more actual fighting and real warfare than any war correspondent who has written about the war. His experiences are grim, but they are thrilling, and lightened by a touch of humor as original as the Soldiers Three. And they are True.

We take pleasure in announcing that we have secured serial rights to this remarkable story and that it will appear in installments

The Greatest War Story Ever Written

TAKE UP STUDY OF NAVIGATION

Revival of Seagoing Spirit
Arouses Widespread Interest in the Subject.

SCHOOLS TEACH THE SCIENCE

Classes in Navigation Being Conducted by Recruiting Service of United States Shipping Board—12,000 New Officers Needed.

Washington.—One of the interesting features of the present great revival in seagoing spirit throughout the country is the widespread popularity of the study of navigation.

Reports reaching the United States shipping board indicate lively interest all over the country in the study of this ancient science, which helped make the nation great in its earliest years of independence.

Classes in navigation, conducted by the recruiting service of the board, to train officers for the ships of the new merchant marine, are being conducted on both coasts and on the Great Lakes. Candidates for admission come from every section of the Union.

The cause of this nation-wide interest in navigation is to be found in the gigantic development of the country's merchant marine. It is anticipated that not less than 12,000 new officers will be required to handle the American cargo-carrying vessels now under construction, and not less than 8,000 men will be wanted for the crews.

A merchant officer today has many advantages in studying navigation that were not known to his seagoing ancestors. There was never a time when the aids to navigation were so numerous as now, or so well developed.

While the manner in which a navigator determines his ship's position on the vast face of the deep must always be something of a mystery to the landman, it does not long remain so to the earnest student of navigation. Some of the students of shipping board schools have been able, after three weeks' study, to determine by observation the position of a ship at sea within three miles, which is considered a creditable performance. The best navigators, on large ships, when able to check up their observations by the work of more than one observer, sometimes do no better.

Early Navigation.

In the early days of ocean navigation the navigator never knew his position at sea within many leagues. It was customary for ships on the voyage from Europe to America to sail westerly until a landfall was made, then coast to their destination.

Columbus followed this method, for want of anything better.

Given sextant and chronometer, the navigator today reduces the job of finding his position to one of careful figuring. Latitude is found by observation of the height, or altitude, of the sun at noon.

Longitude is quite another thing. It being the distance between two places on the earth's surface, expressed in degrees. It is based on the rotation of the earth on its axis every 24 hours, causing meridians 15 degrees apart—a meridian being a line between the equator and the poles—to pass under a certain fixed point in the heavens at one-hour intervals.

For determining longitude all chronometers used on American and British ships are set on the time of the meridian of Greenwich observatory, near London. French ships figure from the meridian of Paris.

Knowing by his chronometer the time at Greenwich, and by observation of the sun at 8 a. m. or 4 p. m. his own time, the mariner, by the aid of tables, has only to find the difference in these two times, to find his distance in degrees from Greenwich. This found, the distance is easily expressed in miles, and marks his position on his chart.

"Dead Reckoning."

Prior to the perfection of the chronometer, the common method of determining longitude was by "dead reckoning," that is, estimating a ship's run day by day, by means of the log, a device for telling her speed by means of the rate at which knots in a line, paid out astern, with a wooden "log" at the end, slipped over the rail in a given number of seconds. This was uncertain, and baffling winds and foul weather made it entirely unreliable.

Many fatal shipwrecks resulted from mistakes in estimating a ship's position by dead reckoning. England lost several of her best ships of war in the eighteenth century by their losing their bearings and crashing upon a rocky shore. One of its bravest admirals, Sir Clondesley Shovel, lost his life in a wreck caused in this way.

The world owes much in navigation to the Portuguese, as it was Prince Henry the Navigator of that nation, who collated all the ancient lore on the subject, in the fifteenth century, and pointed the way to better means of determining latitude than by the ancient astrolabe and cross staff.

The sextant and chronometer were both of English origin, however, and were brought out within five years of each other, the sextant in 1731 and the chronometer—an improved clock—in 1735. Modern navigation, such as so many Americans are studying today, may be said to date from the perfection of these two instruments.

A War Savings Certificate is a pocket-size folder on which you can paste 20 War Savings Stamps.

Paste your War Savings Stamp on your War Savings Certificate. Take good care of it as it is worth \$4.12.

On January 1st, 1923, the U. S. Government buys this War Savings Certificate from you, paying you \$5.

This profit is 4 per cent interest compounded quarterly.

Every man, woman and child in this hour of our country's need, should save money and buy as many War Savings Stamps as he can afford.

You can buy your second War Savings Stamp on the installment plan just as you bought your first one, and more if you desire up to \$42.40.

HOW TO BUY IT FOR CASH

If you do not wish to buy War Savings Stamps on the installment plan as explained above, you simply pay \$4.12 at the War Savings Stamp window of any bank or post office.

War Savings Stamps cost \$4.12 during January.

During February they will cost \$4.13.

After February they go up one cent more each month.

So you see, the sooner you buy your stamps the more money you earn on them.

If you should need your money at any time, take your War Savings Certificate to any post office.

The post office will give you back your money plus accrued interest at the rate of about 4 per cent.

If you do not wish to go to a post office or a bank to buy a Thrift Stamp write on a postcard, "Send me one 25-cent Thrift Stamp, C. O. D."

Address the postcard to "The Post Office."

Next day your postman will bring you a 25-cent Thrift Stamp and a Thrift Card, C. O. D.

Certain-teed Roofing

From every standpoint of service and cost—

Certain-teed has proved its claim—"The best type of roof for most buildings, and the best quality roofing of its type".

Certain-teed has made good all over the world under all conditions—as proved by its enormous sale. It has become the standard roof for buildings of all types and sizes—

for factories, round houses, elevators, garages, warehouses, hotels, farm buildings, stores, out-buildings, etc.

Its economy is three-fold—first cost moderate, laying cost low, upkeep practically nothing. Its efficiency embraces every important roofing quality—weather proof, fire proof, and rot proof, clean and sanitary, and very durable. Certain-teed is not affected by acids, alkalis, or smoke, and does not melt under the hottest sun.

Life: 15, 10 or 15 years, according to thickness.

It pays to get Certain-teed because it costs no more to lay than ordinary roll roofing, and lasts much longer.

HOME CIRCLE COLUMN

A Contented Spirit.

Remember, if you have only what is called an ordinary home, that the great deliverers of the world have all come from such a home. And there may be seated reading at your evening stand a child who shall be potent for the ages. Just unroll the scroll of men mighty in church and state, and you will find they nearly all come from log runs out in the third or fourth generation. You cannot find in all history cabin or poor homes. Genius almost as an instance where the fourth generation of extraordinary people amount to anything. Columbus from a weaver's hut, Demosthenes from a cobbler's cellar. Bloomfield and Missionary Carey from a shoe maker's bench, Arkwright from a barber's shop and he whose name is high over all in the earth and air and sky from a manger.

Let us all be content with such things as we have. God is just as good in what he keeps away from us as in what he gives us. Even a knot may be useful if it is at the end of a thread. The spider draws poison out of a fly, or the bee gets honey out of a thistle, but happiness is a heavenly elixir and the contented spirit extracts it not from the rhododendron of the hills, but from the lily of the valley.

Only A Little Thing.

The secular press is carrying the story of how a crawfish, not over three inches in length, shut down a big trout plant in Wheeling, W. Va., and three 5,000 men for the time being in Illinois. The crawfish had traveled from the river through the pump plant to the city reservoir and thence through the water mains and pipes until it reached the meter of the Little Iron Works. Lodging in the meter, it shut off the supply and stopped the whole plant. Only a little thing, but it cost that plant the loss of considerable time and money.

Only a cigarette, but it turned a bright boy into a nicotine reservoir. He failed in college and failed in business because his heart and brain were poisoned by the "little white slaver."

Only a social glass, but it turned a brilliant youth into a poor old drunkard. Money gone, friends gone, loved ones desolate and broken-hearted. He finally fell under the wheels of a rushing locomotive and his poor soul went out into the night of eternal gloom.

Only a "little sin" unrepented of and unforgiven, but it brings on the sinners the full penalty of the law that declares that the soul that sinneth shall die. "The wages of sin is death."

In view of the tremendous possibilities of good and evil that are to be found in almost every thought and word and action, we sometimes wonder if there are any "little things" in this world. A tiny wire may carry a spark that will blow up a munition. A word may create influences that will shake a nation. The life of a humble peasant has revolutionized the world and will sooner or later give it a civilization beyond anything for which we have yet had the courage to hope. Surely there are no little things.

The effort at "pleasing mother" should be cultivated in the child's heart. Early in life they should begin the cultivation of thought and effort with reference to the gratification of her wishes and of making her happy. If they would do this they would find daily opportunities for speaking kind words and rendering such helpful services and showing such noble traits of character in dealings with others as would gladden the heart and lighten the cares of mother in a way too often thought of. If boys, if girls, could but realize their indebtedness to their mothers, they certainly would generally be very much anxious about pleasing them. The great men of the world, who have acknowledged their indebtedness to their mothers, took delight in pleasing them. But most of all their noble lives, their courage in doing right and their honorable achievements in public life were especially pleading to their noble mothers. Hardly a higher tribute can be paid to any young man's success in life than "It pleased his mother."

The people who have so much sympathy for those who have gone beyond all earthly help, might use a little of it in every day life to a good and excellent purpose. The life of kneeling people when alive and then for a person to weep over their grave when dead is a waste of many of us do and do not realize why the world is no better today. Speak your kind words to the living, and when you are dead you need not care what is said of you.

If you want cheerfulness in your home you must have sunshine and kind hearts. Plan to live in the sunshine; if there is a pleasant room in your dwelling, live there; if there is a dark room shut it up; keep the children out of it; if you have troubles shut them up there—never take them into the family circle—give home the constant thought and plans of your whole life and fill it with love, joy, peace, gladness—sunshine.

We do not laugh enough. There is nothing more pleasant to the ear than the merry laugh of a happy, joyous person and nothing drives away gloom and care like a good, hearty laugh. Laughter and good humor make a happy, pleasant home and a cheerful bright home is the greatest safeguard against temptations for the young. Parents should guard against this and spare no pains to make home a cheerful spot.

SMALL FARM NEAR LOUISA IS WANTED

We have been requested to try to locate a small place for rent just outside the outskirts of Louisa. Want a good house and a few acres of land suitable for cultivation. Apply to the Big Sandy News Office.

MUSKRAT FOR FOOD

The enormous numbers of carcasses of muskrats which are thrown away after the pelts have been removed is a waste of food. The muskrat is an animal of most cleanly habits, is most discriminating in choice of food, and is a very acceptable addition to the table.

The writer can speak from personal experience to the effect that when cooked as rabbits are cooked the meat of the muskrat is extremely palatable. As a matter of fact, muskrats are sold for food in some of the eastern markets and some hunting clubs in the East have annual banquets in which the muskrat forms the chief dish. In some places this animal is known as the "marsh rabbit."

It is to be hoped that this means of reducing the cost of living, although slight, may not be overlooked.—F. L. Washburn, Minnesota Experiment Station.

RAISING MORE BEEF CATTLE

Thousands of New Breeding Herds Being Established All Over Country With Better Stock.

It is a fact that there are thousands of new breeding herds being established all over the country. It is also a fact that farmers and small ranchmen are using more care in selecting the helpers and cows for these new

herds and the additions they are making to the herds they already have on their farms. Better quality has been procured from every hilltop in the land.

The live stock journals and agricultural papers have not let up in their advocacy of pure-bred cattle for the beef herds, and the voice has been heeded.

GRUBS INJURIOUS TO STOCK

Pests Found on Backs of Cattle Develop Into Heel Flies and Do Great Harm to Animals.

The characteristic lumps or swellings which may be found under the skin on the backs of many cattle from January to April contain grubs. If these grubs are allowed to remain, they will complete their growth, drop to the ground and transform to heel flies, which may reinfect the cattle during the spring and summer. The grubs weaken the cattle, cause them to fall off in flesh and milk, and decrease the value of the hide. The beef in the immediate vicinity of a grub becomes slimy and of a greenish color, and is known to the butcher as "flecked beef." On an average the damage to the hides is placed at one-third their value and the loss of beef to each infested animal ranges from \$3.00 to \$5.00.

ARRANGING RATION FOR COWS

Three Things Should Be Borne in Mind—Protein, a Little Fat and to Supply Succulence.

The ration for the dry cow should be formulated with three things in mind, namely, to furnish a sufficient amount of protein to develop the fetus properly and allow a surplus for the needs of the body of the cow; to supply enough carbohydrates that the cow may lay on a little fat; and to supply succulence. Some kind of green feed is very essential in the ration for the cow at all times. It serves the purpose of maintaining the bowels in a loose condition, which is necessary to good digestion and assimilation of food.

COMPOST HEAP IS ESSENTIAL

Leaves, Ashes and Other Refuse Matter Should Be Accumulated for Garden Soil.

With the existing high cost of fertilizers of all kinds it is important that every farmer have a compost heap where leaves, ashes and other refuse matter about the place can be accumulated for use on the garden soil.

THE SACRIFICE

By Harold Crawford Stearns of The Vigilantes.

If you should hear earth moan, and fall to head;
If you should turn your back on writhing pain;
If you should close your eyes when nations bleed,
You would be one with Cain.

Although you give your riches to the state,
Although you yield your body, clean and whole,
You shall receive a dim reward from fate—
You must present your soul!

MAN POWER OF HUNS

Germany's Full Strength Is Now 5,500,000 Men.

3,130,000 Are on Various Fronts, the Remainder Are Guarding Neutral Frontiers.

Paris.—The Echo de Paris, referring to the distribution of enemy forces on the different fronts, says: "On the Franco-British front there have been for several months past 152 German divisions, of which 54 were opposed by the British and the remainder by the French. Following the recent British offensive at Cambrai, the proportion was modified. There are now exactly 154 divisions on the Franco-British front, each comprising about 5,850 bayonets, and including artillery, engineers, etc., or about 12,000 men in all, thus giving about 2,000,000 German combatants on the Franco-British front."

"In view of the uncertainty of what Russian anarchy has in store for them, the Germans have left about a million men on the Russo-Romanian front. As a matter of fact, the movements effected have resulted not in a diminution of the number of fighting units on this front, but in their quality."

"On the Italian front Germany has sent to the assistance of the 45 Austrian divisions only seven divisions, or about 100,000 men."

"On the Balkan front she has sent only 20,000 combatants to reinforce the Turks and Bulgarians. In Asia Germany has restricted her help to furnishing general staffs."

"Consequently Germany, whose total strength is 5,500,000 men, has on the various fronts 3,130,000 men, the remainder being required for guarding the Silesia and Dutch frontiers and for the occupation of the invaded territories."

HIRSUTE CONSERVATION LATEST WAR MEASURE

Los Angeles, Cal.—Conservation of whiskers is the latest war-time measure advocated here. If every man and youth would refrain from getting a haircut and shave for a month, mathematicians figure something like \$5,000,000 would be saved in labor, time, rent, electricity and gas.

This, however, admittedly would be hard on the barber and the opposition of the ladies to a month's growth of picturesque hirsute adornments on head and husband is insurmountable.

BETTER CLOTHES FOR TOMMY

Britain's Discharged Soldiers to Get "Regular" Outfit Hereafter.

London.—A long-standing grievance of Tommy Atkins is to be remedied. On discharge he was served out with a suit of shabby, described in the trade as "french-me downs," a cheap tweed cap and a muffler, the value being fixed at \$4.20.

A newspaper man who witnessed the discharge of the men who fought at Mons described the returning heroes as looking like charity pensioners.

The press dealt with the complaint and the war office amended the scheme by substituting for the muffler a collar and tie and suggesting greater care in the fitting of individual suits. Henceforth these men are to be released for civilian life wearing suits of decent quality and cut, representing \$10, wholesale value.

USE COLOGNE BELL FOR GUNS

Great 55,000-Pound Relic of 1870 Dismantled and Sawed Into Parts for War Purposes.

The Hague.—The great "kaiser's bell," whose sonorous voice many Americans may have heard above the roars of Cologne, has now been removed from its cage in the southern tower of the grand cathedral to be melted for war uses. It rang its funeral clung on New Year's night.

The bell weighed 55,000 pounds and it was necessary to saw it in pieces to get it down.

French guns captured in 1870 and 1871 were the material from which the bell was made, and it was first sounded on March 21, 1877, the birthday of William I. It took 27 bell ringers to operate it.

War-time Training.

New York.—To train 500 social workers for war-time emergencies, the mayor's committee of women on national defense began a war-time training course. The course is in co-operation with Columbia university.

GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

HAIR STOPS FALLING OUT AND GETS THICK, WAVY, STRONG AND BEAUTIFUL.

Your hair becomes light, wavy, fluffy abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandurine hair cleanse." Just try this—moisten a cloth with a little Dandurine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandurine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and loss of it, surely get a small bottle of Dandurine's Dandurine from any druggist or toilet counter for a few cents.

MAKING BARBER COATS NO EXEMPTION EXCUSE

New York.—Michael Feldstein, while filling out a government questionnaire, sought exemption from military duty on the ground he manufactured military uniforms. When the exemption board learned that Michael made "coats of military cut for barbers," recommendations were made that "Michael would look fine in a coat of military cut, but which is not worn by the barber shop brigade."

EAT MORE POTATOES

Increased Use Will Bring About Saving of Grain.

Agricultural Department Suggests Tubers Be Given More Prominent Place in Luncheons.

Washington.—The eating of more potatoes for supper, or for luncheon, if the family is accustomed to have dinner at night, is a suggestion of the United States department of agriculture, in order that the tremendous crop of tubers produced in the United States this year may be utilized as fully as possible and spoilage avoided. Such increased use should, at the same time, bring about a saving of grain, since one common result of eating more potatoes is the eating of less wheat bread, which is a reasonable suggestion when one remembers that both of them are used as a source of starch in the diet. This reduction in grain consumption is desirable, the department points out, and there is great need of grain for shipment to our soldiers and to the soldiers and civilians of other countries engaged with us in the war against Germany.

The use of more potatoes for luncheon should be a simple matter. In the opinion of specialists of the department of agriculture, since practically all Americans like potatoes and since there are numerous ways in which the tubers may be prepared to avoid a sameness in the diet. Potatoes, even in their simplest forms—baked and boiled—make good luncheon dishes. They may also be used for making a variety of dishes, such as creamed and omelette potatoes, with or without cheese; stuffed potatoes, potato croquettes, and so on. Combination dishes, such as hash, steaks, meat pie with potato crust, and so on, in which a considerable amount of potato is used with other foods, may constitute practically an entire luncheon, being hearty enough to serve for the purpose with a little salad or fruit or sweets.

THE RED CROSS NURSES OF EUROPE ARE GIVING TOASTED CIGARETTES TO THE BOYS

To anyone who doesn't know of the wonderful advances that have been made in the preparation of smoking tobaccos in the last few years it may sound strange to speak of toasted cigarettes.

Strictly speaking, we should say cigarettes made of toasted tobacco; the smokers of this country will recognize it more readily by its trade name, "LUCKY STRIKE"—the toasted cigarette.

The American Tobacco Company are producing millions of these toasted cigarettes and these are being bought in enormous quantities through the various tobacco funds conducted by the newspapers of the country and forwarded through the Red Cross Society to the boys in France.

This new process of treating tobacco not only improves the flavor of the tobacco but it seals in this flavor and makes the cigarettes keep better.

The Red Cross nurse is always glad to have a cigarette for the wounded soldier, as, in most instances, that is the first thing asked for.

HUSBAND COURTS WAR, BUT NOT WITH SPOUSE

Independence, Kan.—A married man of this city recently returned his questionnaire and waived all his rights to exemption.

When asked why, as a married man, he didn't take advantage of them, he said: "Exemption he d—d. You don't know my wife. Say, man, I'd rather walk across No Man's land and back barefooted than live with that woman."

COLLEGE BOYS TAKE UP AX

Athletes of University of Colorado Will Cut Wood During Week-End Vacations.

Boulder, Colo.—Athletes of the University of Colorado here, who are not caught in the next army draft, will shoulder an ax instead of a musket, and go into the forests of the Rocky Mountain national preserves during holidays and week-end vacations to cut wood. This will be brought to Boulder and shipped to Denver and other cities as fuel, to take the place of coal.

The college boys have agreed to donate at least 20 per cent of their ax and saw earnings to the Red Cross.

A NERVOUS WRECK

From Three Years' Suffering, Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 10 years of experience proven that the books are right. Even taking Cardui today.

HELP! SEND FUEL! PET CANARY HAS YOUNG ONES

(By International News Service) Detroit.—"Hence, sir, oh, please, if you are humane, send coal to my home at once."

This was the agonized appeal of a woman over the telephone to the fuel administrator's office. The coal was produced and, when pressed for explanation, the woman added: "My pet canary is hatching young ones."

YOU'RE BILIOUS! LET "CASCARETS LIVE!" LIVER AND BOWELS

DON'T STAY HEADACHY, CONSTIPATED, SICK, WITH BREATH BAD AND STOMACH SOUR.

Get a 10-cent box now. You men and women who can't get feeling right—who have headache, coated tongue and taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets or merely forcing a passage every few days with a cathartic pill or enema oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, indigestible, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

Cincinnati authority tells how to dry up any corn or callous so it lifts right off.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out root and all, without a bit of pain.

A quarter of an ounce of freezezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callous. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

TUSCOLA.

Our people are very busy with their spring work.

Squire J. H. Frasher made a business trip to Louisa Monday.

Tom Daniel, Sr., and Tom Daniel, Jr., have moved to Wm. Brainard's and occupy the house recently vacated by Bill McKinney. Tom Jr., will work at Mr. Brainard's saw mill and Tom, Sr., will operate his basket factory.

Messrs. J. K. Woods and H. A. Jordan were at Louisa Friday on business. Lindsey Mullins was at Webbville Sunday.

Mr. and Mrs. Adlai Jordan of Akron, Ohio, are visiting his parents, Mr. and Mrs. M. F. Jordan.

Mrs. J. H. Young and two sons went to Irish creek Saturday to see her mother who is dangerously ill.

Bert Cooksey was a business caller at Gladys Sunday.

Mr. and Mrs. Lish Jobe of Osie, visited their daughter, Mrs. Erie Wright, Sunday.

We always read the Home Circle Column and think the advice given in last week's News well worth a year's subscription to the paper. Any mother that heeds that advice and brings her girls up accordingly will have girls fit to grace any home rich or poor; but the mothers who allow their girls to gad about will find, to their sorrow, that there are homes innumerable that their girls will not be allowed to enter even for a brief stay.

May the Home Circle still be a leading feature of the NEWS, is the wish of

GIRLS! LEMON JUICE IS SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of refined white makes a whole quart of pint of the most remarkable skin un skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

THE SEASON'S DRESS HATS

ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

THE MOMENT "PAPE'S DIAPERSIN" REACHES THE STOMACH ALL DISTRESS GOES.

Do some foods you eat hit back—waste good, but work badly; ferment into acids and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, get this down: Pape's Diapersin helps neutralize the excessive acids in the stomach so your food won't sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is upset you usually get happy relief in five minutes, but what pleases you most is that it helps to regulate your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapersin" is positive in neutralizing the acidity, so the misery won't come back very quickly.

You feel different as soon as "Pape's Diapersin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent box of Pape's Diapersin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any stomach disorder, due to acid fermentation.

THE SAILORS APPRECIATE GIFTS.

Mrs. Anna Steese Richardson writes in the March Woman's Home Companion:

"As for knitted garments, I wish you could have been with me one day at a certain naval base near New York when the crew of a ship which had been accidentally sunk in our very harbor entered the chaplain's office to receive their fresh supply of knitted garments. They had all lost their clothing, barely escaping with their lives.

"The boys lined up like the well-trained sailors they were, tucked their supplies under their arms and marched out again, headed by an officer. But the moment they broke ranks outside headquarters, each boy became absorbed in his own particular package of knitted garments and comfort bag, turning the sweaters, the helmets, the wristlets and even the bags, inside out, poking inquiring fingers into every corner.

"What are they looking for—slices?" I asked the young officer at my elbow.

"Dear, no," said my guide with a laugh. "Letters, notes, the addresses of the lady who knitted the garments or fitted the bag. They want to write back and say thank you."

"After watching their frenzied search for notes and addresses, nothing can ever make me believe that the boys do not appreciate such gifts."

ULYSSES.

There is an unusual number of persons moving both to and from this place this spring. Luther Laney has sold his store to Ben Brown and moved to Kenova, W. Va., where he will farm this year. They are good people and we are sorry to lose them.

Joe Edwards and Lon Swim have moved to the Scott Boyd farm at this place.

Merideth Bovins has moved here and will farm for James Morrison this year. We are informed that A. M. Pickett of Catlettsburg has traded property there to the Scott Boyd farm at this place and will move here later.

Ed Jones will move to Ohio in the near future and will farm there this summer.

Bud Webb has bought of his step-mother the farm which was owned by his father, the late John Webb. Mrs. Webb contemplates moving to Ashland this spring.

Ernest Burton, Ernest Fraley and Oscar Williamson left this place Sunday morning and went to Louisville and Monday morning went to Camp Taylor in the service of the U. S.

A revival meeting has been in progress for two weeks at Bell's chapel, Georges creek. There has been a goodly number of conversions and additions to the Freewill Baptist church at this place.

that place. The services were conducted by the local ministers of that denomination. We hope that much and lasting good has been accomplished by their untiring efforts.

A small child of Lawrence Kager was badly, but not seriously burned recently.

Mrs. Nolda Jones was quite sick last week, but is able to be out again.

Mrs. L. W. Hatfield, who has been seriously ill of spinal trouble for two months, we are sorry to say is not much improved.

Miss Sydney Swan has quit her school here on account of the sickness and death of her father and has gone to her home at Cordell.

Bascom Boyd will teach the remainder of the term of about five weeks. Miss Swan is a good teacher and has made many friends here since coming to this place.

HENRIETTA.

Mrs. Sam Meade, who has been sick since December, is no better.

Miss Rosa Preece of this place spent Saturday and Sunday with Mrs. J. H. Preece of Clouse.

Mrs. Leona Meade spent Sunday with her niece, Miss Gertrude Meade.

Bob Hall spent a few days of last week with Phil Preece.

The stork paid a visit to our vicinity last week and left at the home of Mr. and Mrs. Lon Boothe, a fine boy.

Miss Shirley Hlevins spent Saturday night with her cousin Miss Ollie Ward.

We are so very sorry to announce the death of uncle Rhode Murry, who died suddenly of heart failure last week. He was laid to rest on the old Murry graveyard. He left an aged wife and several children, all of whom are married. Our greatest heartfelt sympathy goes out to all.

W. D. Osborne of Tomhawk, visited his grandparents, Mr. and Mrs. Elias Meek the latter part of last week.

Miss Melissa Osorne, who has been employed at Kings Daughters' hospital at Huntington, was visiting relatives at Henrietta the past week.

Mrs. Millard Meek is in ill health at this writing.

Geo. R. Lewis of Louisa, attended the burial of uncle Rhode Murry.

Mrs. Wm. Chapman called on Mrs. Phil Preece Sunday evening.

Little Phil and Uriah Preece, sons of J. H. Preece, visited the latter part of last week at the logging camp of Phil Preece.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

GIVE "CALIFORNIA SYRUP OF FIGS" IF CROSS, SICK, FEVERISH, CONSTIPATED.

Look back at your childhood days. Remember the "dose" mother insisted on—calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless, "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

LIVE STOCK FARMING AS A MEANS OF MAINTAINING SOIL FERTILITY

Right Way to Care for Manure Produced on the Farm—Conserve the Plant Food Which It Contains to Increase the Fertility of the Soil.

(Prepared by the United States Department of Agriculture.)

No farming people have ever been able economically to maintain the fertility of their soils without the use of live stock. Farming without the use of manures is a waste of energy and results in the exhaustion of soils. The neglect in preserving and increasing the quantity of farm manures has been a great drain on the natural resources of the American farm, especially in the southern portion of the United States. The lack of intelligent care of the waste products and the convenient form of commercial fertilizers have jointly been responsible for the almost general neglect of farm manures.

Value of Fertilizers.

Commercial fertilizers have played and will continue to play a great part in the farm economy of the country. Their full value, however, cannot be obtained by their exclusive use. A much greater value can be had from them when used wisely in connection with manure and green crops. One of the principal reasons for the small value sometimes realized from manure of any kind is that it has not been properly handled and through exposure and neglect has lost a large percentage of its plant food. The chief difference between barnyard manure and other vegetable matter is that the process of passing through the animal has rendered the fertilizing elements of the former more available for absorption in plant growth. The best authorities tell us that from 75 to 90 per cent of the fertilizing value of a

crop is left after passing through the animal. This being true and the elements being in a soluble form, we have some idea of why it is of the utmost importance to protect the manure supply from leaching by rains or from other sources of loss.

Loss by Leaching.

The Cornell University experiment station found that as much as 50 per cent of the plant food constituents in manure was lost by leaching and unnecessary fermentation. The problem is how best and most economically to prevent this loss. The best plan where it is practicable is to haul out the manure regularly, spread it upon the land, and plow it under. The best results are usually obtained by turning under shallow. The next best plan is to keep the stock under sheds or in stables with sufficient litter to absorb all liquids. This treatment will not only take up moisture but the continual tramping of the animal will exclude all air, so that the accumulation will go on without injury to its quality until a convenient time to remove and spread it on the land. The litter or waste matter used for bedding not only serves its purpose in helping to preserve the manure, but adds considerably to it.

When neither of these plans can be advantageously used, a cheap shed conveniently located may be substituted and all manure carried to it as removed. Care must be taken to prevent heaving, which is especially liable to happen when horse manure predominates. This can be remedied by adding water when needed.

CAREFULLY LOOK OVER SEED

Corn Should Be Graded Before It Is Shelled to Secure Uniformity in Size and Shape.

(Prepared by the United States Department of Agriculture.)

Shelled corn is not easily graded and all seed corn should therefore be looked over carefully before the ears are shelled. The grading is done to secure uniformity of size and shape in each lot of kernels, so that they will be dropped evenly from the corn-planter when it is set for special lots of seed.

If the seed ears vary as to size of kernel they should be separated into two or three grades, according to the type of grain they bear. These grades should be shelled separately—always by hand and not by a mechanical sheller—and then tested in the corn planter. After finding the numbers on the planter plates which drop the kernels most uniformly, each lot should be numbered with corresponding figures. All this should be done when work is slack in the winter and before the spring rush begins.

Be sure there is enough for two years' planting. You may need it yourself if the first planting is drowned out; and there never was a time when there was not in demand for seed corn known to be good.

WHEAT HARVESTS OF THE WORLD

WINTER CARE FOR CHICKENS

Where Hens Are Compelled to Use Energy in Fighting Cold They Will Not Produce Eggs.

Keep the hens warm and comfortable, yet provide enough ventilation to keep the air pure, for a hen that must use her energy in fighting the cold cannot put the same energy into egg production.

GROWTH OF CHEESE MAKING

Twelve New Factories Established in West—Big Improvement Seen in Milk Supply.

(Prepared by the United States Department of Agriculture.)

Work to develop cheese manufacture in the Western states, begun in July, 1916, has resulted in 12 new cheese factories, says the annual report of the Bureau of Animal Industry, United States department of agriculture. Improvement of the milk supply produced a better quality of cheese and greater yields. One factory reported that the improvement of the milk supply alone increased the net income of cheese at least \$3,000 a year. Possibilities for expansion of cheese work in the West are said to be almost limitless, but no effort is being made to encourage the establishment of factories where there are not cows enough or where other circumstances prevent successful operations.

GOOD FEEDS FOR DAIRY COWS

Those Who Can Obtain Fish Meal Should Give It Consideration in Arranging Rations.

(Prepared by the United States Department of Agriculture.)

Dairymen who can obtain fish meal, a by-product of the fish canneries, should give it consideration in making up the rations for their dairy cows. When used in a ration for milk production fish meal proved to be worth from 20 to 25 per cent more than cottonseed meal and had no ill effect upon the flavor of the milk, says the annual report of the bureau of animal industry, United States department of agriculture. Potatoes silage was found to be as palatable as corn silage and of equal feeding value; peanut meal from unhulled nuts was inferior to cottonseed meal, and 123 pounds of potato meal equaled 100 of cornmeal as a feed for dairy cows, according to experiments conducted by the bureau.

DON'T DISTURB LAYING HENS

Undue Excitement in Poultry House Is Bound to Reduce Egg Yield of Young Fowls.

It pays to be quiet and careful in the houses containing laying hens, especially if they are pullets from the range which have just commenced to lay. Strangers that visit poultry plants should realize that undue excitement is bound to reduce the egg yield and make every effort not to frighten the birds by sudden movements. A strange child running through a poultry house will frighten the hens and seriously reduce the laying for that day.

"That was a good one, wasn't it? You've been through—how could you resist? Why did you go in the navy?"

He looked at me for a second, with the slightly puzzled eyes of a child who is disappointed in a grown-up, and shamed me by the simplicity of his manner:

"Why, Indy, we're at war!"—New York Herald.

ENLIGHTENED GERMANY

Soldiers Think They Are Fighting Against Napoleon.

Declaring that the ordinary Prussian soldier is educationally unfit for democratic government, Prof. Ulrich Kahrstedt contributes to the Amsterdam Kreis Zeitung an article on his studies of the mentality of Teuton troops at the front.

"I have for months interrogated soldiers on all four fronts," he says, "and have found that among the Rhinelanders, Bavarians and Silesians 10 per cent of the men do not even know the correct title of the German emperor. In the summer of 1915, 5 per cent of our men did not know what powers were at war, while to this day 3 per cent are ignorant of the fact that we are at war with Japan.

"In practically every regiment I have found noncommissioned officers who thought we were fighting against the French Emperor Napoleon. Sixty per cent of our men do not know the name of their chief of staff, and 40 per cent are unable to answer the question whether the Carpathians lie on our eastern or western front."

HONOR FORBIDS

By ROBERT ADGER BOWEN, of The Vigilante.

Honor forbids that we may longer be the friends of those who uphold Germany.

Between the man who'd keep his manhood clean And him who champions all that's vile and mean Must yawn a chasm bridgeless as the sea.

May we forget the scarlet infamy? The dastard deeds that meet with jubilee? The foul excesses which no lies may screen? Honor forbids!

Our Country calls. And answering her decrees Youth bright with promise puts its life in fees.

Nor may there any longer lie between Our souls and German arrogance a screen The semblance of a manly sympathy. Honor forbids!

REFUGEES IN PARIS SHOW FINE SPIRIT

Help Themselves and Each Other Without Depending Upon Charity to Any Degree.

Paris finds itself pretty well crowded by the refugees from the North, especially the repatriated French from Alsace-Lorraine. Living is high in Paris at best, and conditions would be intolerable from the quantities of these unfortunate who continue to flock into the city, if they were not as helpless and needy as one would expect them to be. But such is the fine spirit in France now that even those who have had to flee from home and belongings are setting about to help themselves and each other without depending on charity any more than absolutely necessary.

The foreign news service of the woman's committee reports the existence of several co-operative kitchens in Paris, run entirely by refugees, where living expenses are reduced to a minimum by co-operative buying, management, etc. These kitchens are so run that one may either eat there, in the restaurant, or take the cooked food home.

At one of these kitchens, at 37 Rue d'Antenne, a meeting of French and Belgians was held recently to consider the subject of lodgings, which is a very serious one. The majority of the refugees are women, and they give the most practical and meticulous care to these problems, and are very systematic about providing for themselves so that they will not be a burden upon the city to which they have fled.

ALL OF FAMILY SERVE

Father, Two Sons and Daughter Are Over Sea.

The family of William Piggott of Nequaunee, Mich., probably are the only entire family in the United States in the service of the nation.

All members, including the father, two sons and a daughter, are now overseas in the service of Uncle Sam. William Piggott, the father, being an expert railroad man, is now in France with the railroad corps. His youngest son joined the regulars and was one of the first men to set foot on French soil. The daughter then joined the American hospital service and is over in France now with the unit commanded by Miss Hill, daughter of the late James J. Hill.

The other son joined the National Guard and has reached France as a part of the Rainbow division.

SUBSCRIPTION PRICE TO BE INCREASED

BIG SANDY NEWS ANNOUNCES NEW RATE AND PROBABLE DATE.

Increased and increasing costs of everything entering into the making of a newspaper have forced us to a conclusion against which we have been fighting for more than a year; and that is, the inevitable necessity of increasing the subscription price of the Big Sandy News to \$1.50 per year. The situation demands either this or a considerable reduction in the size of the paper. We have chosen the former, and instead of reducing the efficiency of the paper we are planning to improve it.

Probably Next Month.

It is our present intention to put the increase into effect sometime in March. Until that time we shall receive subscriptions at the present rate of one dollar per year. Subscribers may pay as far ahead as they desire at the old rate if they do so before the increased price is put into effect.

The Reason Why.

Recently we received notice of a big advance in the cost of a certain quality and color of ink which we use to a considerable extent in our job printing department. The manufacturer said the coloring matter required had advanced one thousand per cent in cost. This is an extreme instance, but there is a general increase all along the line, touching every department of the newspaper and printing business. Therefore, we must do what everybody else is doing—raise the price of our product.

The manufacturer, the merchant, the farmer, the laboring man, the tradesman, the office department, the butcher, the baker and all the rest, are meeting the increased costs by raising prices. They can not do otherwise, neither can we.

The dollar paid us by the farmer a few years ago bought from three to six times as much farm products as it will buy to-day.

Hundreds of weekly newspapers in the United States have raised their price to \$1.50 and \$2.00 during the last year or two, and the list is being added to every day. The daily newspapers of the country have, with few exceptions, increased their prices. Those that add at one cent now bring two cents. In New York City in January three leading newspapers doubled their selling price.

We believe our patrons will appreciate the effort we have made to keep the price of our paper down and will willingly grant the increase that in order to be entirely fair to them we are giving advance notice and the privilege of paying ahead at the old rate of one dollar per year.

KENTUCKY WOMEN PREPARE FOR WAR

Thousands of women in this state have overcome their shyness, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take it. "Prescription" of Dr. Pierce's. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper. Send 10c. for trial package to Dr. V. M. Pierce, Buffalo, N. Y.

LOUISVILLE, Ky.—"I wish to express my gratitude for what Dr. Pierce's Favorite Prescription has done for me. I was all run-down and weak, nervous, and could not sleep nor eat. I began taking Dr. Pierce's Favorite Prescription and the 'Pleasant Pellets' and after taking three bottles of the 'Prescription' I was able to do all my household work—never felt better in my life. I will always recommend 'Favorite Prescription' to my friends."—Mrs. E. LAYTON, R. 2, Box 28, Berry Blvd.

COVINGTON, Ky.—"For about 20 years I have known of Dr. Pierce's Favorite Prescription. I began using it because of nervous and dragging around I used several bottles of this well-known remedy. It always helped me just as it is advertised to do. It is the most pleasant and best medicine for women I have ever used. I have recommended it to several others. My daughter has used it and it has just good results. I have—Mrs. LUCAS GIBSON, 1331 G. map St."

"Say, girls, you can laugh at tight shoes, damp, corn-pulling weather, big bumpy corns, calluses on the soles of your feet, corns between the toes, hard and soft corns."

**"It's All Off With This Fine Corn Now—'Gets-It' Is Magic."**

If you will just touch the corn or callus with a few drops of 'Gets-It'. What a blessed relief it gives to corn pains! You won't limp any more, you can enjoy the dance every minute. Then to see how that corn or callus will come right off complete, like a banana peel and without the least pain, is just wonderful. 'Gets-It' is the biggest seller among corn removers in the world today simply because it is so wonderfully simple and always works. Be sure you get 'Gets-It'.

'Gets-It' is sold at all drug stores (you need pay no more than 25 cents a bottle), or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

GRANGE MASTER INDORSES BONDS

Urges Ohio Farmers to Prepare for the Next Liberty Loan Drive

GRANGE SURPLUS ALL INVESTED

Nation's Securities Best Investment on Earth. Farmers Should Prove Patriotic by Buying.

Barnesville, O.—(Special)—Louis J. Taber, master of the Ohio State Grange, urges that the coming Liberty Loan drive be made the subject of special discussion and consideration in the Washington-Lincoln Liberty meetings now being held in the various sub-granges throughout the state. Mr. Taber favors a big farmer investment next drive.

"The next Liberty Loan campaign," he says, "will afford the Grange an exceptional opportunity to serve patriotically not only our order, but agriculture, the country and civilization at large. The motto of the state grange is 'A bond in every farm home in Ohio.' The state organization has invested every penny of its surplus in Liberty bonds. Sub-granges should follow its example."

"Nor should we stop there. Every patron and every farmer should be reached. For there is not a farmer in Ohio but can afford to buy at least one Liberty Bond on the very easy terms offered. Every one should hold at least one bond. The farmer was not a heavy purchaser in either of the earlier drives. There were reasons justifying this condition then, but there is no adequate excuse for his failure to purchase now."

"No class of men have been more criticized than the farmer, however unjust this criticism may have been. They will soon have an opportunity to refute these charges, and I am confident they will maintain the traditions of their patriotic forefathers by coming nobly to the financial rescue of their country. There is no better or safer investment on earth than a Liberty Bond."

WORK, SAVE, FIGHT.

These are the three cardinal requisites of the present condition of world menace. They are the surmounting beatitudes of our chaotic times. We will ignore them only at our peril. We will shirk them only at an overwhelming cost. We must do not only one, but all to win. And win we must.

To lose this conflict with the Kaiser's hosts; to bend the knee in submission to the will of the Prussian autocracy; to accept peace terms dictated by the war lords of Germany, would be to trail in the dust the highest hopes of Democracy. It would mark the Waterloo of Liberty. It might spell the end.

America wants no autocratic domination at this late day. The United States has led the way in world enlightenment and the sowing of the seeds of freedom too long ever to submit to tyranny. And German victory would mean that.

So we must work to the utmost in our respective lines that the normal production may be maintained and our material needs may be met fully and promptly.

We must save, economize, curtail, that home consumption may be reduced and our individual resources kept to their normal standard.

For in doing both we will have more to offer our government, directly and indirectly, through personal sacrifice and investment in war securities.

And we can trust our boys at the front to do their share of the fighting; the spirit of freedom will inspire to that.

Work, save, fight and WIN.
That's our program.

THE SHADOW BEFORE.

Remember that story which flashed across the cables some weeks ago about an American sentry having been killed by a German night patrol?

Evidently they surprised and overpowered him. They might just as easily have taken him prisoner. But they didn't.

They cut his throat from ear to ear! Not a pretty story; not a story commending the much vaunted German Kultur; not a story calculated to inspire confidence in the Kaiser's closely following peace proposals.

But intensely illuminating! It was notice, served in the German way, of what our boys in khaki may expect.

It was an early intimation of what the gore-maddened Hun may be expected to do if he ever puts his mailed heel and his mailed fist upon American shores.

And in the usual Prussian way it was done in the dark!

God help America if we fail to bring every resource to bear in winning this war.

And God help you and yours if you fail to do your part.

Buy a Liberty Bond before it is too late.

We MUST strafe the Hun.

A lot of pessimistic prophets are sorely disappointed that the last Liberty Loan failed to "hustle the Hun."

The Communication Army

A bird's-eye view of the country today would show a mighty panorama of military and industrial activities.

Radiating from the National Capitol and from the army and navy centers throughout the land would appear the thousands of telephone lines by which all these vast enterprises are directed and co-ordinated—a veritable maze of wires linking together the camps, yards, fortifications, plants and offices, and swarming with linemen, cablemen and installers, busy with Uncle Sam's existing and ever-increasing demands for telephone service.

All this is but a part of the vast work which the Bell system is doing, but among the unforeseen conditions which the war has imposed upon us is the necessity of practically suspending the commercial development of our business.

Confronted with an abnormal increase in the use of the telephone and an unprecedented demand for new and additional service, we cannot accept or fill orders except subject practically to an indefinite delay. This situation is due to the importance of conserving our supplies so that the government's requirements may be promptly met at any time a request is made.

At a time like this, we believe the public will appreciate a frank statement of the situation and will join us in our efforts to serve the government first and efficiently.

Always Have PERUNA

Mrs. L. A. Patterson, 1399 Kentucky St., Memphis, Tennessee, writes:

"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children, times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."

Elkhorn City Boy Gassed.

The Elkhorn City boy who was gassed was H. Deal, son of a well known citizen of Pike-co., and this will be deeply regretted. The tragedy perpetrated upon this young man, one of many others so treated, brings the horrors of the war closer home to us. These brutalities inflicted on our boys will doubtless have a tendency to stimulate action on behalf of our armies, to avenge the foul deeds perpetrated by these German beasts.

Mr. and Mrs. Fuller

Return From East.

Mr. and Mrs. Robert Fuller of Pikeville, are here, having returned from the East where they visited their son, Will Fuller, at a great cantonment in New Jersey, near Hoboken, where he is connected with the aviation department as an electrical engineer. He is full of enthusiasm and is thoroughly in love with his work and training and is anxious to see real service. He has

gained much in weight, his activities and training being wonderfully conducive to health. Mr. and Mrs. Fuller spent a few days there, also several days in New York and were delighted with their visit. They met a number of the other home boys among whom was Dr. Solie Casebolt, Mr. and Mrs. Fuller have been guests of Mr. and Mrs. Merritt McGinn, also of their nephew Mr. Harvey Patrick of Normal.

SOMEBODY.

Prestonsburg Items

Mrs. Evans Entertained. The Presbyterian Aid Society was delightfully entertained on last Thursday at the home of Mrs. C. W. Evans.

The afternoon was well taken up with various kinds of needlework during which the ladies were entertained by the "Edison." At four o'clock Mrs. Evans was assisted in serving by Miss Ella Noel White, coffee, cake and doughnuts.

Baptist Box Sale.

The ladies of the Irene Cole Memorial church held a very successful box sale on last Saturday at the Allen meat market. About 44 boxes were sold and the cry for more was heard from many who failed to be on time. The proceeds amounted to about \$20.

Rav. Hart Ill At Inez.

Rev. Ernest Hart, pastor of the Inez and Presbyterian church here has been very ill with pneumonia at Inez for the past three weeks. His sister-in-law from the Bluegrass was called to Inez to help nurse him. His condition is much improved and he hopes to return to Prestonsburg as soon as his condition will permit.

Churches Held Communion.

Both the Irene Cole Memorial and Methodist Episcopal South churches observed last Sunday as the day of sacrament unto the Lord. Impassioned sermons were preached at both churches to the usual attendance.

Dr. Record Postponed Visit.

On account of the absence and illness of Mr. E. H. Hart, pastor of the Presbyterian church, Dr. J. F. Record president of Pikeville college who was to have preached at the church here on last Sunday and administer the sacrament of the Lord's Supper, has postponed his engagement until later when Mr. Hart can be here.

Visitors From Paintsville.

Mrs. Walter S. Wells had as her attractive guests last Friday from Paintsville, Mr. Wells' mother and sister Miss Geneva, and Mrs. Jno. Buckingham and little daughter. They returned on the afternoon train.

Red Cross Market.

The Red Cross is having great success each week with their various

offerings of this week at the Market. On South they gave a Red Cross pie, eggs and various canned goods were arranged attractively and sold so fast many were disappointed in not getting there on time.

Porter-Elliott.

Announcements have been received by many of the friends of both parties, announcing the wedding of Miss Susan Cynthia Porter to Mr. Charles Hereford Elliott of Pikeville on New Years Eve at Huntington W. Va. This comes as quite a surprise to their numerous friends. Miss Porter is the youngest daughter of Mr. and Mrs. Jacob Porter of Cliff and a most attractive and intellectual young lady. Mr. Elliott is a son of Mr. and Mrs. King Elliott of Pikeville and is now located at Huntington in the recruiting office for Uncle Sam.

Visitor From Washington.

Mrs. Joseph McKinster May arrived from her former home in Lexington Monday evening for a few days visit to Mr. May's parents, Mr. and Mrs. Isaac May at Cliff. Her friends will remember her as Miss Parrish, who visited at the May home the latter part of the summer for only a few days.

Visitor From Minneapolis.

Dr. and Mrs. C. W. Evans have as their guest this week Mr. Curtis of Minneapolis. Mr. Curtis is a stock holder in the Colonial Coal & Coke Co. and visits here quite often.

Mova Into New Property.

Mr. N. M. White moved the early part of the week from the Vance property on Court-st. into his new cottage on Third-st. and Interville. They expect to build an attractive bungalow on their new lot just as soon as the weather permits.

Will Give Concert Soon.

Miss Isabelle Thompson, teacher of voice and piano in the Pikeville college, will give a voice recital on Saturday evening, March 16 at the Irene Cole Memorial church for the benefit of the Presbyterian Aid. The church has just received a new baby grand piano and Miss Grace Layne will accompany Miss Thompson on the piano.

Miss Thompson comes highly recommended as a most unusual singer. She sang at the dedication of the Presbyterian church last fall and all who heard her were well pleased. Pikeville is to be congratulated on having such an artist in the college at the head of the music department and all who come will receive a rare treat.

Young Ladies Guild.

Mrs. C. Y. Ligon was an attractive hostess this week to the members of the Young Ladies Guild Society. On account of the heavy rain which fell about four o'clock the society remained until a late hour. A most delightful and delicious salad course was served to more than a dozen members.

Methodist Aid Society.

The members of the Methodist Aid Society were delightfully entertained on Wednesday afternoon at the home of Mrs. Sam Spradlin. As usual Mrs. Spradlin served her bounteous supply of salads, etc., after a few pleasant hours of needle work.

KAVANAUGH.

Rev. J. H. Dawson filed his appointment here the fourth Sunday. It being his first trip here for some time on account of sickness in his family. We understand his folks are better at this writing.

There is a lot of sickness in this vicinity at present, among the sick being one of our efficient S. S. teachers, Mrs. B. P. Wright, who is ill with pneumonia.

Mrs. E. J. Wright, one of our oldest and best respected citizens, is very sick. Mrs. Wright is 85 years of age. Her daughter, Mrs. A. M. Stanforth of Delhi, Ohio, has been called to her bedside. Dr. J. A. Pritchard is the attending physician.

We are glad to note the recovery of our S. S. Supt., Miss B. M. Finney, who has been very sick since November. Miss Finney was able to be out for the first time last Sunday.

B. P. Wright has lagrippe.
